

## MACHINING TECHNOLOGY INNOVATION

### BUILDING FOR THE FUTURE, ONE DETAIL AT A TIME!

#### FOR ALL TYPES OF PRODUCTION

Low or high volume / steel, hard steel, stainless steel, aluminum, wood, cast iron, brass, plastic, cast or forged parts.

#### PROFESSIONALS YOU CAN TRUST

**More than 25 years of expertise and know-how!**

Teamwork / Customer satisfaction

Integrity / Innovation and progress / Foresight

#### QUALITY: A TOP PRIORITY

Respect for the highest standards / ISO 9001

CMM inspection (3D)

#### OUR SPECIALIZED TEAM OFFERS YOU\*

- ▶ integrated and adapted (turnkey) solutions
- ▶ innovative, long-lasting solutions
- ▶ attention to project details

\* Complete description of equipment on reverse

## WIDE VARIETY OF PRECISION MACHINING EQUIPMENT

### INTEGREX:

- 410 HS, 5 axes, 24" diam. x 124" L capacity

### CNC LATHES:

- Slant Turn 450, 2 axes, 28" diam. x 72" L capacity
- 350MY, 4 axes, 16½" diam. x 63¼" L capacity
- 35N, 2 axes, 21" diam. x 40" L capacity
- 35XS, 2 axes, 21" diam. x 60" L capacity
- Multiplex 6200Y, 4 axes, 11½" diam. x 12" L capacity (dual spindle)

### CNC MILLING CENTRES:

- V550 vertical, 22" W x 22" H x 61" L travel
- V655 vertical, 25" W x 25" H x 80" L travel, 4 axes with continuous rotation table
- V655 vertical, 25" W x 25" H x 60" L travel
- FH680 horizontal, 41" W x 31½" H x 32" L travel, 40 HP, 4 axes
- FH6800 horizontal, 41" W x 31½" H x 34½" L travel, 40 HP, 4 axes

### CONVENTIONAL MACHINING SERVICE (LATHES AND MILLING MACHINES) INCLUDING ONE VERTICAL LATHE WITH 52" DIAM. CAPACITY

### DYNAMIC AND STATIC BALANCING SERVICE

### SAWS:

- Hyd-5-20A, 12" diam. capacity
- Hyd-5-25A, 20" diam. capacity

### WELDING SERVICE AND MECHANICAL ASSEMBLY

### STRESSRELIEF OVEN
